AVANTech Awarded US Navy Demineralizers

AVANTech, Inc. has received a purchase order for the delivery of six (6) demineralizers in support of US Naval Operations. These standard AVANTech designs will allow the fabrication to be completed within a short time frame. The system design, engineering, and fabrication will be validated with a functional test prior to site delivery. "Our product lines create cost effective solutions for a wide range of clients. This award is an excellent example of our ability to create a cost effective solution. This award shows our ability to deliver pre-engineered equipment for a wide range of clients. Our product diversity continues to grow and ensure we can support all of our water treatment customers," stated AVANTech President Jim Braun.

AVANTech is a design-build company with a commitment to providing service second to none! AVANTech was founded in 1999 and has expanded its business by applying the exceptional talents of its technical team. AVANTech's approach to facility integration makes us uniquely qualified to provide turnkey services. Our personnel have extensive experience in the planning, design, manufacturing and operation of water-treatment systems for industrial and government clients. AVANTech technologies have enabled facilities to establish zero liquid discharge operations by completely recycling all of their wastewater.
