## **AVANTech Awarded Makeup Water System in Puerto Rico**

AVANTech, Inc. was awarded the delivery of a 366 gpm ( $\sim 80 \text{ m}^3/\text{Hr}$ ) make-up water treatment system consisting of multimedia filtration; cartridge filtration, anti-scalant addition, reverse osmosis, electrodeionization and a clean-in-place equipment. AVANTech's scope of work requires complete integration of the make-up treatment facility including; automated controls, interconnecting piping, and start-up support services. The system design, engineering, and fabrication will be validated with a full system test at Avantech's manufacturing facility prior to site delivery. "This award is confirmation of our unique abilities to cost effectively integrate custom designed treatment facilities for our industrial clients. AVANTech is committed to serving our clients and growing our business by offering custom integration solutions that create unique value for our water/ wastewater customers," stated AVANTech President Jim Braun.

AVANTech is a water-treatment company with a commitment to providing service second to none! AVANTech was founded in 1999 and has expanded its business by applying the exceptional talents of its technical team. AVANTech's approach to facility integration makes us uniquely qualified to provide turnkey services. Our personnel have extensive experience in the planning, design, manufacturing and operation of water-treatment systems for industrial and government clients. AVANTech technologies have enabled facilities to establish zero liquid discharge operations by completely recycling all of their wastewater.
