## **AVANTech Delivers Potable Water System**

AVANTech, Inc. has received a purchase order and delivered the potable water distribution and hypochlorite treatment system in support of Shaw Engineering's work at the Vogtle Nuclear Station. This system included custom electrical and controls that integrated other operations in their facility. "We are excited to provide one of the first systems to the Vogtle site and support the resurgence of nuclear power. Our diverse skill sets enable us to bring a commercial approach to governmental and nuclear clients." stated AVANTech President Jim Braun.

AVANTech is a design-build company with a commitment to providing service second to none! AVANTech was founded in 1999 and has expanded its business by applying the exceptional talents of its technical team. AVANTech's approach to facility integration makes us uniquely qualified to provide turnkey services. Our personnel have extensive experience in the planning, design, manufacturing and operation of water-treatment systems for industrial and government clients. AVANTech technologies have enabled facilities to establish zero liquid discharge operations by completely recycling all of their wastewater.
